WHY DIGITAL ADVERTISING?

Advertising online is now an essential element of a successful marketing strategy: responsive, versatile, capable both of building brand awareness and engagement and driving response and purchase behavior.

Advertising online is often seen as the greatest direct response strategy ever invented. And it is. But that's only part of the story. Online advertising campaigns are able to target consumers at any point in the purchase funnel, with a level of interactivity that today's consumers demand but which no other channel can deliver. Advertising online can build new levels of brand engagement and advocacy, generate almost immediate word-of-mouth, target audiences to an extent not available through other media and impact immediately on purchase behavior.

Digital has rapidly changed the way consumers relate to brands. For advertisers to respond, they arguably need to move on from the question of 'Why Digital?' and start to ask 'How Digital?'

AFFLUENT CONSUMERS IN A DIGITAL WORLD

- *Generally the hardest to reach consumers via traditional media such TV and radio, affluents are the heaviest users of digital media, far outpacing non-affluents in Internet use.*
- *Digital advertising is essentially ubiquitous and most consumers – affluent and otherwise – recall seeing 15-20 digital ads each week. Affluent consumers view and recall more digital ads.*
- *Digital advertising is widely accepted by modern consumers with widespread understanding of the ad-supported free content model and a clear preference for ad-supported free content over paying for ad-free content.*
- *Affluents prefer relevant advertising and are more likely than the general population to share personal information in exchange for a personalized online experience.*

Economic Value of the Advertising Supported Internet

The Internet has become central to social and economic life and is, today, a mature and integral element of the U. S. national economy. It is not only vital infrastructure, it is a spur to entrepreneurship and social change. It has changed the way firms find customers, customers find information, and people manage social relationships.

Ad Units and Policies:

Sailboatdata.com offers a wide variety of ad sizes and placements, developed in conjunction with the IAB ad unit guidelines. Unlike many other sailing websites, ads can run on every page.

Our above-the-fold banner, otherwise known as a Leaderboard is a standard **728 pixels x 90 pixels IMU**. This unit will run immediately below the Sailboatdata.com logo, above the menu.

Leaderboard pricing is monthly. Rate available upon request.

This Leaderboard is displayed 100% above the fold. Research shows ads that run above the fold are seven-times more effective at generating click-throughs.

Additional leaderboards are available which display between the data boxes as indicated below:
